Tran Ba Thien Sinh

Frontend Developer

Au co St., Ho Chi Minh City | 0965356603
thiensinh127@gmail.com | https://thiensinh127.github.io/resume/

📅 SUMMARY

Frontend Developer with over 3 years of experience in building responsive, user-friendly web applications. Proficient in React, Next.js, and modern JavaScript. Strong team player with a passion for clean code, performance optimization, and scalable architecture.

💼 PROFESSIONAL EXPERIENCE

Software Engineer
Terralogic LLC | Oct 2021 - Present
Team size: 12-15

HRMS – Human Resource Management System (Serving 1,000+ users) A centralized platform for automating HR operations, including ticket management, time tracking, leave requests, and employee directory.

- Ticket Management   Oct 2024 - Present

- Built an internal request system for HR, IT, payroll, etc.
- Implemented advanced filtering, notifications, and role-based access.
- Impact: Reduced internal request handling time by ~40%.
- Tech: Next.js, Tailwind CSS, Redux Toolkit Query, REST APIs.

- Timesheet Management   Jun 2024 - Oct 2024

- Developed a time tracking tool with daily/weekly logs and export features.
- Supported project-based logging and user notifications.
- Tech: React.js, Ant Design, SCSS, Redux-Saga.

- Admin Portal   Dec 2023 - Jun 2024

- Developed admin dashboard to manage users, roles, and system configurations.
- Enabled bulk operations and secure access.
- Tech: Next.js, Tailwind CSS, Redux Toolkit Query.

- Time Off Management   May 2022 - Dec 2023
- Created leave request and approval workflow with real-time notifications.
- Automated leave balance updates.
- Tech: React.js, Ant Design, Redux-Saga.

- Employee Management   Oct 2021 - May 2022

- Built a searchable employee directory with organizational chart.
- Integrated filters, profile editing, and access control.
- Tech: Next.js, Tailwind CSS, Redux Toolkit Query.

🔧 TECHNICAL SKILLS

- Knowledge of programming languages: JavaScript (ES6+), TypeScript, HTML5, CSS3 (SCSS, Tailwind CSS)
- Frameworks & Libraries: Reactjs, Nexjs
- Tools: Git, Webpack, Vite, Yarn, NPM, VS Code
- UI/UX: Responsive Design, Figma, Ant Design
